

## Erratum

The abstract titled "Exploring Strain Differences Observed during the Development of a Selective NaV1.7 Inhibitor" (Garyantes T, Babich O, Wang-Fischer Y, *J Pain* 16:S44, 2015) contains an error. The corrected text appears below:

This poster will explore model consistency across strains, investigators, time, models and endpoints observed with our selective NaV1.7 inhibitor and control compounds. According to the authors' data, there is no significant difference in pharmacological response in formalin test between a) CD-1 mice from Charles River Laboratories and b) ICR (CD-1) outbred mice from Harlan and minimal differences between inbred and outbred mice.
